13. Web browser cookies

a. What is a cookie?

A cookie is a small amount of data, which often includes a unique identifier that is sent to your computer, tablet or mobile phone (all referred to here as a "device") web browser from a website's computer and is stored on your device's hard drive. Each website can send its own cookie to your web browser if your browser's preferences allow it. Many websites do this whenever a user visits their website in order to track online traffic flows. Similar technologies are also often used within emails to understand whether the email has been read or if any links have been clicked. If you continue without changing your settings, we'll assume that you are happy to receive all cookies on Ceviche Family website. However, you can change your cookie settings at any time.

On Ceviche Family websites, cookies record information about your online preferences and allow us to tailor our websites to your interests.

During the course of any visit to a Ceviche Family website, the pages you see, along with a cookie, are downloaded to your device. Many websites do this, because cookies enable website publishers to do useful things like find out whether the device (and probably its user) has visited the website before. This is done on a repeat visit by checking to see, and finding, the cookie left there on the last visit.

b. How does Ceviche Family use cookies?

Information supplied by cookies can help us to understand the profile of our visitors and help us to provide you with a better user experience. It also helps us recognise when you are signed in to your Ceviche Family account and to provide a more personalised experience. Ceviche Family uses this type of information to help improve the services it provides to its users. Certain areas of Ceviche Family websites may use cookies for a specific reason - for example, to help an online game work effectively on your device.

c. Ceviche Family Sharing Tools

You will also see embedded 'share' buttons on Ceviche Family web pages; these enable users to easily share content with their friends through a number of popular social networks. When you click on one of these buttons, a cookie may be set by the

service you have chosen to share content through. Ceviche Family does not control the dissemination of these cookies. If you continue without changing your settings, we'll assume that you are happy to receive all cookies on Ceviche Family website. However, you can change your cookie settings at any time

d. Ceviche Family cookies and how to reject cookies

Full information about how the Ceviche Family uses cookies, and how to control what cookies are set on your device through the Ceviche Family website, can be found on using Ceviche Family.

It is important to note that if you change your settings and block certain cookies, you will not be able to take full advantage of some features of Ceviche Family services, and we might not be able to provide some features you have previously chosen to receive.

e. Other information collected from web browsers

Your web browser may also provide Ceviche Family with information about your device, such as an IP address and details about the browser that you are using. We use information provided by your browser or by the link that you have clicked to understand the webpage that directed you to Ceviche Family Online and this may be captured by performance cookies.

If you have any concerns about the way that we use cookies or respect your settings, then please contact to the Data Protection Officer, at hello@cevicheuk.com.

14. Apps and Devices

When you download or use Ceviche Family apps on your mobile device, information may be accessed from or stored to your device. Most often this is used in a similar way to a web browser cookie, such as by enabling the app to 'remember' you or provide you with the content you have requested.

Your web browser or device may also provide the Ceviche Family with information about your device, such as a device identifier or IP address. Device identifiers may be collected automatically, such as the device ID, IP address, MAC address, IMEI number and app ID (a unique identifier relating to the particular copy of the app you are running).

When you sign in to a Ceviche Family app, your sign-in details may be stored securely on the device you are using, so you can access other Ceviche Family apps on the same device without needing to enter your sign-in details again.

If you have any concerns about the information which might be accessed from or stored on your device by the Ceviche Family, you may wish to only access Ceviche Family content through a web browser and review your web browser settings. Visit Using the Ceviche Family ("How can I stop my internet browser tracking my info?") for more information.

15. Changes to Ceviche Family's Privacy and Cookies Policy

This Privacy and Cookies Policy may be updated from time to time so you may wish to check it each time you submit personal information to Ceviche Family. The date of the most recent revisions will appear on this page. If you do not agree to these changes, please do not continue to use Ceviche Family websites to submit personal information to Ceviche Family. You can also delete your Ceviche Family account at any time – please see section 12 for details. If material changes are made to the Privacy and Cookies Policy, for instance affecting how we would like to use your personal information, we will provide a more prominent notice (including, for certain services, email notification of Privacy Policy changes).
